

Nutrafeed Soluble Fertilisers for Tomato

Pre-Plant

Green Banana ⁽¹⁾ @ 400 - 600 kg/ha.
Apply as 20 - 40 cm band along rows 7 days prior to planting.

OR

Rustica Plus ⁽²⁾ @ 400 - 600 kg/ha.
Apply as 20 - 40 cm band along rows 7 days prior to plantation.

Notes:

⁽¹⁾ Use on low organic soils.

⁽²⁾ Use on poor soils with low trace elements.

⁽³⁾ Fertigation water E_c should not be $> 2ds/m.$, hence injection concentration should not be $> 1.2g/l.$ If the water contains salts then NUTRAFEED can only be added up to E_c of $2ds/m.$

Further Information

For further information on NUTRAFEED or any other Paton products phone Paton's freecall 1800 644 753

Program⁽³⁾

Week 1	Calcium Nitrate	25kg/ha
Week 2	Nutrafeed 19	35kg/ha
Week 3	Nutrafeed 19	50kg/ha
Week 4	Nutrafeed 23	50kg/ha
Week 5	Nutrafeed 23	65kg/ha
Week 6	Nutrafeed Kestrel	70kg/ha
Week 7	Nutrafeed Kestrel	75kg/ha
Week 8	Calcium nitrate	75kg/ha
Week 9	Nutrafeed Kestrel	75kg/ha
Week 10	Nutrafeed Kestrel	80kg/ha
Week 11	Nutrafeed Kestrel	65kg/ha
	Calcium nitrate	65kg/ha
Week 12	Nutrafeed Kestrel	75kg/ha
Week 13	Nutrafeed Kestrel	100kg/ha
Weeks 14, 15, 16	Nutrafeed Kestrel	50-70kg/ha
