

Nutrafeed Soluble Fertilizers

NUTRAFEED 23

Patons NUTRAFEED 23 is a highly soluble complete fertilizer with trace elements. NUTRAFEED 23 is an excellent general fertilizer for all plants, and is particularly suited to plants requiring higher nitrogen such as younger plants, leafy ornamentals and vegetables.

USE

Can be used in nurseries, vegetables, lawns, greens and for home gardeners.

Can be applied through fertigation (mixed with water) or as a foliar fertilizer (sprayed on leaves).

APPLICATION RATES

- Flowers & vegetables - FOLIAR 0.4% soln 4g/L.
- Tomatoes, Eggplant, Capsicums - 1 - 5g per plant per week (soil application) 5- 7 days after transplanting.
- Potted Plants (soil application) 0.1% -0.2% or 1-2g/L.
- Lawns, greens and turf -(soil application) 5 - 10 gms / m²
- Fruit Trees 75 - 100gms / tree / week During the growing season.
- Forage 2 - 5 kg / ha. 10 days after each cut
- Greenhouse 1 - 2 kg / 500m² / day

Storage:

Store in a sealed container in a cool, dry place.

Never mix any NUTRAFEED product with Calcium nitrate.

PRODUCT ANALYSIS

Nitrogen as nitrate	5.5 %
Nitrogen as ammonium	1.8 %
Nitrogen as Urea lo Biuret	16.1 %
Total Nitrogen (N)	23.4 %
Phosphorus (P) as water soluble	4.0 %
Potassium (K) as nitrate	16.0 %
Potassium (K) as sulphate	2.1 %
Total Potassium (K)	18.1 %
Sulphur (S)	1.4 %
Magnesium (Mg)	0.4 %
Manganese (Mn)	0.02 %
Iron (Fe)	0.04 %
Molybdenum (Mo)	0.001 %
Boron as sodium borates	0.004 %
Copper as (EDTA) chelate	0.002 %
Zinc (Zn)	0.003 %

Important Things to Remember:

- Always water fertilizer in well, immediately after application. Watering should involve a thorough saturation of the area.
- Avoid direct contact with plant roots, seeds, etc.
- Even, light and regular applications of a quality product will achieve the best results.
- Always reseal bags after use and dispose of empty containers properly.
- Sandy soils will require lower rates of fertilizer but more frequent applications
- Apply sparingly on potted plants as excessive fertilizer can cause burning relatively easily.
- It is much safer to apply small amounts on a regular basis.

DO NOT EXCEED THE RECOMMENDED APPLICATION RATES AS THIS CAN BE HARMFUL TO PLANTS
